Jim -

Here's the excerpt from the FY12 President's Budget regarding SF Bay Delta:

And here's some information (pulled from our website at <http://www.epa.gov/sfbay-delta/sfbaywqfund/projects.html>)  
on the project we funded last year in Contra Costa County:

Emerson Parcel of Dutch Slough Restoration

Project Facts

Total = \$4,154,200

EPA = \$1,400,000

Match = \$2,754,200

\* Leveraged funds = \$6,659,700

Schedule: October 2011 to September 2015

Recipient: California State Coastal Conservancy

Partners: US Fish and Wildlife Service, CA Department of Water Resources, Reclamation District 2137, CA Department of Fish and Game.

The California State Coastal Conservancy has been planning tidal marsh restoration at Dutch Slough, an area of 1,178 acres of diked lands, since 2002. This project will fund restoration of Dutch Slough's Emerson Parcel which will restore 270 acres of tidal marsh, 20 acres of riparian woodland and scrub, and 100 acres of open subtidal waters. Restoration activities include grading for tidal marsh elevations, levee breaching, construction of water control structures, and re-routing Marsh Creek to restore the creek delta on the Emerson parcel, providing seasonal freshwater flow cues to out-migrating salmon.
